

Authentication

lab #lab09

James L. Parry
B.C. Institute of Technology

Lab Goals

The purpose of this lab is to help you practice working with simple authentication.

Your lab will be completed in a github repository. This will be your (forked) `starter-auth` repo.

You may work on your own or in a pair for this lab. Remember to join a group for your dropbox submission, with a link to your repo.

Please make sure that your work is in the "master" branch of your repository, and that any other branches have been merged into it.

Due: Five days after your lab, 17:30pm

Lab Marking Guideline

- 2 marks for login form
- 2 marks for authentication
- 2 marks for authorization
- 2 marks for access control
- 2 marks for tailored menu

Your Job

Complete tutorial "tut-adv01"

Congratulations!

You have completed lab #lab09: Authentication

If you would take a minute to [provide some feedback](#), we would appreciate it!

The next activity in sequence is: [tut-adv01](#) Authentication

You can use your browser's back button to return to the page you were on before starting this activity, or you can jump directly to the course [homepage](#), [organizer](#), or [reference](#) page.
